INVITATION LETTER

To those who may be affected,

I am writing this letter to invite one academic teacher to cooperate in the teaching process in the field of human geography and landscape studies at the University of Architecture, Civil Engineering and Geodesy in Sofia (Bulgaria). We invite you to stay for two weeks in June 2023. We would like to share our experience in organizing student activities, including student seminars on landscape studies in tourism, as well as spatial planning of rural areas, etc.

Please kindly contact 1 balanced interested person and we are waiting for your reply.

His visit to Sofia will be covered by the POWER program and your university. If you have any questions, don't hesitate to contact us.

Yours sincerely

assoc. prof. Milena Tasheva - Petrova, PhD
Department of Urban Planning
Faculty of Architecture, UACEG
1 Chr. Smirenski blvd. Sofia
